Comprehensive in Executive Mastery: Governance, Leadership, and Strategic Management Intensive

Ref: 3254370_308339 **Date:** 15 – 26 February 2027 **Location:** Prague (Czech Republic) **Fees:** 9400 GBP

Introduction

Welcome to the "Executive Mastery Intensive in Governance, Leadership, and Strategic Management in the Public Sector", an advanced and high-impact program designed for senior executives, policymakers, and public sector leaders who aim to master governance principles, risk management, and strategic decision-making at the highest level.

This course goes beyond traditional executive training, offering a comprehensive framework for public sector governance training, corporate governance, and risk management through real-world case studies, crisis simulations, and high-stakes decision-making exercises in government and public sector organizations.

As governance in the public sector plays a crucial role in ensuring accountability, transparency, and efficiency, this course equips government officials, board members, and senior leaders with the latest tools and methodologies to navigate complex policy landscapes, strategic planning, and risk management frameworks.

Whether you work in government institutions, regulatory agencies, municipal organizations, or public-private partnerships, this program will provide you with in-depth insights into how public sector organizations are governed, the principles of good governance, and the role of auditing in public sector governance.

Course Objectives

By the end of this intensive executive program, participants will be able to:

- Understand the principles of public sector governance and how government and public sector organizations operate.
- Master corporate governance in the public sector, ensuring compliance with ethical, legal, and operational best practices.
- Develop expertise in risk and crisis management in the public sector, focusing on proactive risk mitigation and crisis response strategies.
- Enhance leadership skills to drive efficiency, accountability, and service excellence in government and public sector organizations.
- Apply strategic planning and risk management frameworks to improve policy implementation, public administration, and organizational sustainability.
- Differentiate between government and the public sector, understanding the unique challenges and responsibilities of each entity.
- Explore the role of government in the public sector, including governance structures, types of government, and decision-making processes.
- Utilize effective auditing techniques to ensure transparency, regulatory compliance, and efficiency in public sector governance.
- Leverage digital transformation and data analytics to enhance government planning and decision-making.

Course Outlines

Day 1: Principles of Public Sector Governance & Government Oversight
