Strategic Planning for Small and Medium Enterprises (SMEs)

Ref: 3254861_323785 **Date:** 26 – 30 July 2027 **Location:** Singapore (Singapore) **Fees:** 5400 GBP

Introduction

In an increasingly complex and competitive global economy, strategic planning is no longer a luxury—it's a necessity, particularly for small and medium-sized enterprises SMEs. Understanding the purpose of strategic planning and how to align it with organizational goals is crucial for sustainable growth and resilience.

This course is designed for executives, team leaders, and functional specialists across sectors in the Middle East and North Africa MENA region, whether they're early in their careers or in mid-to-senior leadership roles. Participants will gain practical tools and proven frameworks to develop strategic planning and management capabilities, set clear objectives, and execute effective strategies tailored to the unique challenges faced by SMEs small and medium-sized enterprises.

Whether you work in oil and gas, banking, telecommunications, HR, project management, marketing, or other fields, this course equips you to think strategically and lead your teams to success.

Course Objectives

By the end of this strategic planning training, participants will be able to:

- Understand the definition of strategic planning and its importance for SMEs.
- Analyze internal and external environments using frameworks like SWOT analysis and strategic planning.
- Develop clear vision, mission, and core values aligned with organizational strategic planning.
- Set strategic planning goals and define key performance indicators KPIs to measure progress.
- Create actionable plans that align with available resources and organizational priorities.
- Apply tools and models such as PESTEL, Balanced Scorecard, and SMART goals.
- Monitor and adapt strategic plans in response to market shifts and real-time performance.
- Bridge the gap between strategic planning and development for effective execution.

Course Outlines
