Entry Certificate in Business Analysis (ECBA)

Ref: 3255604_346114 **Date:** 15 – 19 March 2027 **Location:** Paris (France) **Fees:** 5200 GBP

Introduction

The Entry Certificate in Business Analysis ECBA is a foundational certification designed to build structured knowledge in business analysis principles and practices. It focuses on understanding how organizations identify needs, define requirements, evaluate solutions, and improve operational performance through systematic analysis.

Modern organizations rely on business analysis to align strategic objectives with operational execution. Clear requirements, structured documentation, and accurate evaluation of alternatives reduce risk, improve efficiency, and support measurable outcomes. As a result, professionals equipped with business analysis fundamentals play a critical role in strengthening decision-making processes and enhancing institutional performance.

The ECBA program is relevant for executives overseeing strategic initiatives, team leaders coordinating cross-functional efforts, operations specialists, project support professionals, and individuals transitioning into analytical roles. The practical value of the Entry Certificate in Business Analysis ECBA lies in enabling participants to gather and document requirements accurately, analyze process gaps, assess solutions objectively, and support organizational improvement with structured methods.

Course Objectives

The Entry Certificate in Business Analysis ECBA course enables participants to:

- Understand core business analysis concepts and terminology.
- Identify the role and responsibilities of a business analyst.
- Recognize stakeholders and analyze their needs.
- Apply structured techniques to gather requirements.
- Document requirements clearly and systematically.
- Analyze gaps between current and desired states.
- Evaluate alternative solutions using objective criteria.
- Support informed decision-making through analysis.
- Apply best practices in requirements management.
- Prepare confidently for the ECBA certification examination.
