Strategic Leadership & Business Performance Management

Ref: 3256014_358849 **Date:** 7 – 11 June 2027 **Location:** Kuala Lumpur (Malaysia) **Fees:** 4200 GBP

Introduction

In today's dynamic and competitive business environment, organizations need leaders who can translate strategic priorities into measurable business results. The **Strategic Leadership & Business Performance Management Training Course** is designed to equip managers and professionals with the knowledge, skills, and practical frameworks required to lead strategically, improve organizational performance, make informed decisions, and achieve sustainable business results.

This comprehensive 1-week program focuses on strategic leadership, business performance management, strategic planning and execution, performance measurement, organizational change, risk management, decision-making, and continuous improvement. Participants will learn how to align people, resources, objectives, and performance measures to support organizational strategy and create sustainable value.

Course Objectives

By the end of this course, participants will be able to:

- Understand the principles and importance of strategic leadership and business performance management.
- Connect organizational strategy with measurable business performance.
- Develop strategic thinking and effective decision-making capabilities.
- Apply the strategic management process from planning through execution and performance evaluation.
- Establish clear strategic objectives, performance targets, and Key Performance Indicators KPIs.
- Use strategic tools such as SWOT analysis and environmental scanning to support business decisions.
- Align organizational resources, activities, and performance with strategic priorities.
- Monitor business performance and identify areas for improvement.
- Lead organizational change and performance improvement initiatives.
- Strengthen communication, influence, negotiation, and stakeholder management skills.
- Identify, assess, and manage strategic risks that may affect business performance.
- Build organizational resilience, accountability, and a performance-oriented culture.
- Develop practical strategies for improving organizational efficiency, effectiveness, and sustainable results.
- Develop an actionable strategic leadership and business performance improvement plan.

Why Attend This Course? Wins & Losses!

Wins

- **Strengthen Strategic Leadership:** Develop the ability to connect leadership decisions with measurable business results.
- **Improve Business Performance:** Learn how to identify performance gaps and develop targeted improvement strategies.
- **Master Strategy Execution:** Translate strategic objectives into actionable initiatives, targets, and measurable outcomes.
- **Improve Decision-Making:** Apply structured strategic and analytical approaches to complex business decisions.
- **Develop Effective KPIs:** Learn how to establish meaningful performance indicators aligned with organizational strategy.
- **Build a Performance Culture:** Strengthen accountability, employee engagement, and organizational ownership.
- **Lead Performance Improvement:** Develop the skills to manage change and improve organizational efficiency and effectiveness.
- **Manage Strategic Risk:** Understand how strategic risks can affect business performance and organizational results.
- **Strengthen Organizational Resilience:** Develop strategies for maintaining performance during uncertainty and disruption.
- **Create Sustainable Business Results:** Connect strategic leadership, performance measurement, and continuous improvement to long-term organizational success.

Losses If You Don't Attend

Without strong strategic leadership and business performance management capabilities, organizations may experience:

- Poor alignment between strategy and actual business performance.
- Unclear objectives, priorities, and performance expectations.
- Weak performance measurement and ineffective KPIs.
- Difficulty identifying and closing performance gaps.
- Poor strategic decision-making and inefficient resource allocation.
- Resistance to organizational change and performance improvement.
- Weak accountability across teams and departments.
- Increased exposure to strategic and operational risks.
- Reduced organizational efficiency and effectiveness.
- Missed opportunities to improve sustainable business performance.

Conclusion

The **Strategic Leadership & Business Performance Management Training Course** provides a focused 1-week learning experience for professionals seeking to strengthen their ability to lead strategically and improve organizational performance.

By combining strategic leadership, business performance measurement, strategic planning and execution, performance improvement, people management, organizational change, and strategic risk management, the course provides participants with a practical framework for turning strategy into measurable business results.

Participants will leave the program with practical performance management tools, enhanced strategic leadership capabilities, and an actionable plan for improving performance and creating sustainable value within their organizations.

Frequently Asked Questions FAQ

1. Who should attend this course?

The course is suitable for executives, managers, department heads, business unit leaders, supervisors, team leaders, project managers, performance management professionals, and senior professionals responsible for organizational performance and strategic execution.

2. How long is the course?

The course is delivered over **1 week**, with **4 training hours per day**, for a total of **28 training hours**.

3. Is the course theoretical or practical?

The course combines **strategic concepts with practical application**, including case studies, performance analysis, strategic exercises, decision-making scenarios, discussions, and business examples.

4. Do participants need previous experience in performance management?

Previous management or professional experience is beneficial but not mandatory. Participants should ideally have some exposure to organizational planning, management, or business operations.

5. What performance management tools will participants learn?

Participants will explore **Key Performance Indicators KPIs, performance targets, performance dashboards, SWOT analysis, environmental scanning, strategic planning frameworks, performance gap analysis, and strategic risk assessment approaches**.

6. Does the course cover KPIs?

Yes. **Day 3** specifically covers the development and use of KPIs, performance targets, performance dashboards, performance monitoring, and corrective actions.

7. Does the course cover strategic planning and execution?

Yes. Participants will learn how to translate strategic objectives into actionable initiatives, align resources with priorities, establish performance targets, and monitor strategy execution.

8. Does the course cover organizational change?

Yes. **Day 4** focuses on performance improvement and organizational change, including change management, resistance to change, stakeholder engagement, and sustaining performance improvements.

9. Does the course cover strategic risk management?

Yes. **Day 6** focuses on Strategic Risk Management & Business Resilience and examines how strategic risks can affect business performance, decision-making, continuity, and organizational resilience.

10. Will participants receive a certificate?

Participants who successfully complete the program will receive a **Certificate of Attendance/Completion** in accordance with the training provider's certification policy.

11. Can the course be customized?

Yes. The course can be customized according to the participants' industry, organizational objectives, performance challenges, management responsibilities, and specific learning requirements.

12. What will participants gain from the course?

Participants will gain the ability to **connect strategy with measurable performance, establish meaningful KPIs, identify performance gaps, improve decision-making, lead performance improvement initiatives, manage strategic risks, and develop sustainable business performance strategies**.
