Saudi Labor Law Compliance & HR Operations Management

Ref: 1_360348 **Date:** 21 – 25 December 2026 **Location:** Prague (Czech Republic) **Fees:** 5200 GBP

Introduction

Managing human resources under the Kingdom's Labor Law requires much more than a general understanding of employment regulations. HR professionals must be able to translate legal requirements into practical procedures, accurate documentation, payroll practices, and compliant transactions across the Kingdom’s official employment platforms.

This intensive one-week training program from Blackbird Training Center provides participants with a practical understanding of the Labor Law and its latest amendments, while focusing on how these requirements affect day-to-day HR operations. The course addresses employment contracts, probation, working hours, wages, statutory benefits, employee records, disciplinary procedures, termination, end-of-service benefits, workforce localization requirements, and labor dispute management.

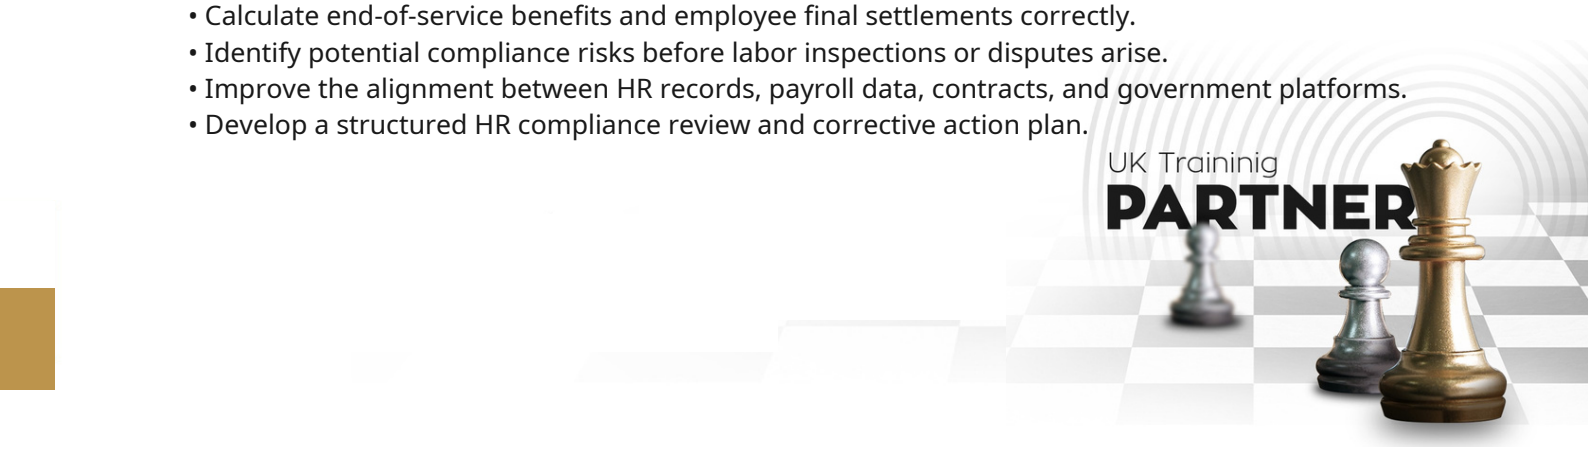

Participants will also explore the operational use of key government platforms such as Qiwa, Mudad, GOSI, and Nitaqat, with particular attention to maintaining consistency between employment contracts, HR records, payroll systems, and regulatory submissions.

Through practical exercises, compliance reviews, and realistic workplace scenarios, participants will develop the skills required to identify HR compliance gaps, reduce legal and operational risks, and strengthen the overall governance of HR practices within their organizations.

Course Objectives

By the end of this course, participants will be able to:

- Understand the main provisions of the Labor Law and recent regulatory changes.
- Translate legal requirements into practical HR policies and operational procedures.

Why Attend This Course

Employment regulation in the Kingdom is increasingly connected to digital government platforms, meaning that HR compliance now depends on both legal understanding and operational accuracy.

This course enables participants to connect Labor Law requirements with everyday HR processes, ensuring that employment contracts, payroll information, employee records, and government platform data remain consistent and compliant.

Participants will gain practical tools and structured approaches that can be immediately applied within their organizations to reduce employment-related risks, improve HR governance, and strengthen readiness for regulatory inspections or employee disputes.
